1-3 Major Third Extensions in Thumb Position EXERCISES

PLAY WITH DIFFERENT RHYTHMS AND IN DIFFERENT POSITIONS

EXERCISE 1: Scalic across strings. Improvise with these notes.

EXERCISE 2: On one string: thumb fixed with fingers free

The thumb can be put only on the "A" string (or removed completely) to facilitate the larger extensions.

Play them on different strings, with different rhythms, and in different positions up the fingerboard, for example

If we start in higher positions, we can increase the range of the thumb/finger extension even higher, for example

EXERCISE 3: Doublestopped arpeggios across three strings (notes indicated with an "x" are silent preparations)

go up, and then come down
